

## Pheasant Run Roadway Maintenance Project

As part of the yearly Pheasant Run Roadway Maintenance Project, Nagle Paving Co., in conjunction with Canton Township and The Pheasant Run Roadway Maintenance Association (PRRMA), will begin concrete curb and sidewalk replacement starting **Friday, July 21st, 2017**. This portion of the project will consist of removing concrete curb and gutter and or sidewalk, replacement of the sidewalk or curb and asphalt repairs in front of the curb at various locations along the community's roadways.

If you have received this notice; work is scheduled to occur in front of your home soon. We will provide traffic control and barricading during the operations, but please be aware of the construction crews and equipment as well as other drivers and adjust your speed accordingly.

Please keep in mind that all work is weather dependent and rain events may affect the schedule of the work.

**Please remove all cars from your driveway/garage and turn off your irrigation system prior to the start of work at your home to facilitate this work. Once the concrete is placed in front of or in your driveway, you will need to stay off of it for a period of one week to allow it to cure properly and prevent cracking. A project representative will notify you of the exact day when we will arrive.**

Please visit the PRRMA website at [prrma.org](http://prrma.org) for additional updates and information.

We understand this is an inconvenience, but please bear with us. This short term inconvenience will lead to long term improvements to your community. You may contact Rob Wilson with Nagle Paving Co. at 248-553-0600, ext. 228. if you have any questions.

**We hope to keep any Inconveniences to a minimum.  
Thank you for your patience and cooperation.**
